Application No. 10/055,796 (Tarnoff) Art Unit 2157 Amendment C

page 4 of 5

REMARKS

Office Communication mailed 2007 June 25

Claims 12-15 and 18-20 are drawn to what the examiner defines as Invention I, claim 16 to Invention II, and claim 17 to Invention III. The examiner requires an election by Application of which invention is to be examined since the application is restricted to only one invention under 35 U.S.C. § 121.

Applicant Elects Invention I

In this Amendment, Applicant cancels claim 16 drawn to Invention II and also cancels claim 17 drawn to Invention III. Only claims 12-15 and 18-20 remain presented, all of which are drawn to Invention I.

This action on the part of Applicant removes the restriction so that the prosecution of the Application may proceed. Applicant submits that he has reviewed the claims with regard to inventorship and that the inventorship remains the same: One inventor, Harry L. Tarnoff.

CONCLUSION

Applicant has made his election to address the restriction so that the prosecution of the Application may proceed. Applicant also submits that this application is in condition for allowance, which action he respectfully solicits.

Pro Se

In view of the fact that the individual inventor of this invention is 100% owner of the rights, title and interest in the invention, he claims small entity status and wishes to continue to prosecute any amendments to the application Pro Se. Applicant has amended the claims of this application and submits that they are proper, definite, and define novel structure distinguished above the prior art which is also unobvious. If, for any reason, this application is not found to be in full compliance with the applicable regulations, the applicant respectfully requests constructive assistance from the examiner in correcting any such shortcomings.
